FLAVIA[®] S350 drinks - coffee shop quality and choice

The unique FLAVIA[®] drinks system has just got better. With its new, thick and creamy Cappuccino, it now brings the complete coffee shop experience right to your desk - without the premium price you might expect.

a café menu

It's like having a trained barista in your office. There's an impressive menu of drinks.

Choose from one of the nine, freshground coffees, including a full bodied **Espresso**, a good strong **Rich Roast**, a medium strength **Smooth Roast**, or a **Decafeine**. Or maybe one of the real leaf teas such as **Earl Grey**, **English Breakfast** or the caffeine free **Herb Red**. There's even a smooth hot chocolate.

But best of all there's an **authentic Cappuccino**
to rival any **coffee shop equivalent**.

The Café of Choice[™]

FLAVIA[®] S350 Cappuccino

Cappuccino is now the preferred choice of people who go outside the office to buy coffee.

But now you and your employees can **indulge** in an authentic **FLAVIA[®] Cappuccino** at work, with the FLAVIA[®] S350, the only office drinks system to offer **coffee shop quality cappuccino the FLAVIA[®] way.**

It's created by combining our high quality **Espresso Roast coffee** with our own velvety smooth **Creamy Topping**. The **coffee Filterpack** and the **topping** are brewed separately to ensure that each cup has the same careful balance of top **quality espresso**, smooth milky froth and delicious flavour. The result is a carefully crafted, creamy tasting treat.

No instant cappuccino can compare.

The FLAVIA[®] **Cappuccino** combines high quality **Roast coffee** with our unique **velvety smooth Creamy Topping** for an authentic Coffee Shop quality drink

The Café of Choice™

unique FLAVIA® Filterpack

- The unique **FLAVIA® Filterpack** is the key to getting **great taste**, every time.
- Each pack contains its own filter.
- The **aroma** and **flavour** of its fresh, natural ingredients are then sealed in until the moment the Filterpack is placed into the FLAVIA® drinks system. The drink is then **freshly brewed** into your cup.
- In less than **30 seconds** you'll be enjoying a piping hot, **fresh cup of tea, coffee or chocolate**.
